

ANT BAIT COMPARISON CHART: Which is right for you?

Ant Bait	Active Ingredient:	Indoor/Outdoor	Efficacy:	Ant Species:	Ants Not Labeled For:	Attractant:	Manufacturer Notes:
Advion Ant Gel Bait  	Indoxacarb - .05%	Yes	Visual results in 1-3 days. Gel remains palatable up to 2 weeks after baiting.	Argentine Ants, Big-headed Ants, Carpenter Ants, Cornfield Ants, Crazy Ants, Field Ants, Harvester Ants, Honey Ants, Little Black Ants, Odorous House Ants, Pavement Ants, Pharaoh Ants, Pyramid Ants, Red Imported Fire Ants, Rover Ants, Thief Ants, White-Footed Ants		Sweet Feeding	The formulation of Advion Ant combines food-grade inert carriers, highly effective attractants and carbohydrates to enhance the appeal to targeted ants. Ants find Advion Ant so attractive that they have shown favor to it over other food sources. The slight delay in ant mortality, caused by the active ingredient, indoxacarb, allows ants to consume the bait and return to the nest to contaminate other ants, resulting in significant reduction in ant populations.
Maxforce Fleet Ant Bait Gel  	Fipronil - .001%	Yes	Visual results in 3-5 days. Gel remains palatable up to 2 weeks after baiting	Carpenter Ants, Argentine Ants, Pharaoh Ants, Pavement Ants, Honey Ants, Acrobat Ants, Odorous House Ants, Thief Ants, Big-headed Ants, Cornfield Ants, and Field Ants	Fire Ants, Harvester Ants	Sweet Feeding	Maxforce Fleet, the fipronil-based ant gel that works inside and out. The new, thicker formula enables it to stay where it is applied - even on vertical applications. Maxforce Fleet Ant Bait Gel is effective on difficult to control ant species, including Argentine Ants, Carpenter Ants and Odorous House Ants.
Maxforce Quantum Ant Bait Gel  	Imidacloprid - .03%	Yes	Visual results in 2-4 days. Gel remains palatable up to 3 months when used in bait station.	Acrobat Ants, Argentine Ants, Big-Headed Ants, Black Garden Ants, Crazy Ants, Ghost Ants, Little Black Ants, Odorous House Ants, Pavement Ants, Pharaoh Ants, Rover Ants, Thief Ants and White-Footed Ants	Fire Ants, Harvester Ants and Carpenter Ants	Sweet Feeding	Maxforce Quantum Ant Bait Gel offers economical ant control that lasts from one quarterly service visit to the next. Unlike ant gel baits that begin to lose moisture immediately, its hygroscopic formula retains and absorbs moisture to keep it attractive to ants. Maxforce Quantum can be diluted to effectively control mega-colony ants.
Optigard Ant Gel Bait  	Thiamethoxam - .01%	Yes	Entire ant colony elimination within approximately 1 week. Remains palatable for at least 14 days after baiting.	Ants Argentine Ants Carpenter Ants Ghost Ants Acrobat Ants Big Headed Ants Black Garden Ants Field Ants Crazy Ants Cornfield Ants Honey Ants	Fire Ants, Harvester Ants and Pharaoh Ants	Sweet Feeding	Optigard Ant Gel Bait is known for its clear gel formulation that ants are attracted to and is easy for them to consume. It has proven to be accepted and palatable to a wide variety of ants. The powerful active ingredient, thiamethoxam, controls workers, brood and queens to ensure full colony elimination.
Sumari Ant Gel Bait  	Clothianidin - .01%	Yes	Visual results within 24 hours. Remains palatable for up to 90 days.	Acrobat Ants, Argentine Ants, Big-Headed Ants, Cornfield Ants, Crazy Ants, Ghost Ants, Field Ants, Harvester Ants, Honey Ants, Little Black Ants, Odorous House Ants, Pavement Ants, Pharaoh Ants, Pyramid Ants, Rover Ants, Tawny Ants, Thief Ants and White-Footed Ants	Fire Ants, Harvester Ants and Pharaoh Ants	Sweet Feeding	All-new, Sumari Ant Gel Bait features a highly palatable and efficacious matrix, killing the queen and brood within 24 hours and remains attractive and palatable for up to 90 days. It can be used in food areas while in operation and has no signal word. Use Sumari Ant Gel Bait for long-term and complete ant colony control.
